J. Steptoe

2-11-03

Marti Carrillo
Marti Carrillo

Applicant : Richard C. Flanagan, et al.
Application No. : 09/895,791
Filed : June 29, 2001
Title : AEROSOL PROCESS FOR
FABRICATING DISCONTINUOUS
FLOATING GATE MICROELECTRONIC
DEVICES

Grp./Div. : 2812
Examiner : Richard A. Booth

Docket No. : 41994/RAG/C766

RECEIVED
MAR - 6 2003
TECHNOLOGY CENTER 2800

RESPONSE TO RESTRICTION REQUIREMENT DATED JANUARY 24, 2003

Assistant Commissioner for Patents
Washington, D.C. 20231

Post Office Box 7068
Pasadena, CA 91109-7068
February 24, 2003

Commissioner:

In response to the Office action (Restriction Requirement) dated January 24, 2003, Applicants acknowledge the Examiner's requirement of restriction in the above-identified application. The Examiner has required an election of one species by making a selection among each of three groupings identified by the Examiner.

Responsive to this restriction requirement, Applicants elect the species drawn to:

- * The embodiment in which the particles are semiconductors;
- * The deposition method of pyrolysis; and
- * Thermal Growth(pursuant to the Examiner's requirement to select thermal growth or deposition for step C).

Application No. 09/895,791

Consistent with the above three selections, Applicants therefore elect for further prosecution claims 1-10, 12, 14-35 and 40-43 drawn to the species covered by the three selections indicated above. This election is made without traverse.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP
